FARGO® DTC4000

Direct-to-Card Printer

Highly versatile – Delivering powerful printing and versatility in one modular and scalable design that simplifies equipment upgrades and migrations to higher levels of security.

Easy to use – Intuitive design increases efficiency through easy set-up, loading and printing with an all-in-one print ribbon and card cleaning cartridge and SmartScreen™ graphical display.

▶ Enhanced security – Designed to migrate from lower to higher security levels, the DTC4000 offers standard printer password protection as well as fluorescent panel printing for a cost effective and dynamic increase in card security.

ACCESS versatility.

Designed for medium-sized business, schools and local government institutions seeking versatility in a convenient, professional and secure printer/encoder system, the DTC4000 is the ideal printer for organizations who need a flexible, easy and reliable way to color personalize and encode technology cards.

The DTC4000 not only meets your current needs, it also scales to meet your future requirements with these optional field-upgradable modules:

- Dual-sided printing module provides more space for card holder information and security features like duplicate photo and digital-signature.
- Deptional same-side input/output card hopper and movable SmartScreen[™] graphical display helps fit the printer into the tightest spaces.
- Increase capacity with a dual-input card hopper, holding 200 cards for higher capacity printing and encoding.
- Doptional Ethernet connectivity allows for remote printer sharing by many users.
- ▶ Technology encoding modules encode data for magnetic stripe, proximity, contact and/or contactless technology cards, such as iCLASS®, for access control or other applications.

The DTC4000 combines a level of versatility with the simplicity to easily print what you need:

- SmartScreen™ graphical display provides easy-to-follow prompts to be sure you'll always know the status of the printer.
- ▶ Erase and rewrite eco-friendly feature makes the DTC4000 ideal for temporary ID cards.
- Industry's first inline card printing and technology card encoding with one connection using USB or optional Ethernet connectivity.
- ▶ Fully compatible with Asure ID[®] card personalization software for badge design, database management and technology card encoding.

The FARGO® DTC4000 is built with Genuine HID™ technology and is fully interoperable with other products in the HID ecosystem, enabling organizations to leverage their existing HID technology investments.

* Indicates the ribbon type and the number of ribbon panels printed where Y=Yellow, M=Magenta, C=Cyan, K=Resin Black, O=Overlay, B=Dye Sublimation Black.

** Print speed indicates an approximate print speed and is measured from the time a card drops into the output hopper to the time the next card drops into the output hopper. Finit speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, the CPU, amount of RAM and the amount of available resources at the time of the print.
