

SRP-350

The industry's popular thermal Receipt Printer, the **SRP-350** features fast printing speeds, a compact size, and an easy-to-load Drop and Print paper supply. This versatile printer offers a USB interface that can quickly convert to a printer interface as your system evolves.

Samsung thermal printer SRP-350 has all the benefits for your needs, Worldwide market proven quality !!!

Look no further for thermal printing on 80mm wide paper, the Samsung SRP-350 is all you need. Not only for the retail environment but also for medical, warehouse, manufacturing, mail order etc. Benefiting from Windows and OPOS drivers this great printer is easy to integrate to any system.

Fast speed and reliability you can expect from a leading manufacturer.

Providing simplicity for the operator with "drop and print" paper loading and ease of connectivity for the technician with interchangeable interfaces and industry standard drivers. The modern design and small footprint enhance any environment.

- ***The high speed in its class***

The high performance thermal printer the SRP-350 is a must have for any fast moving retail or hospitality environment. It produces receipts, coupons, and tickets at a staggering 150mm per second, without the distracting noise associated with impact printers.

- ***Easy System Integration***

With fast moving technology in IT solution it is important to have simple integration of peripheral devices. The SRP-350 is no exception, drivers are available for Windows 95/98/ME/NT4.0/XP and OPOS.

- ***Drop In and Print Paper Loading***

A simple drop-in loading system means that even inexperienced operators can load paper rolls with the minimum of effort.

- ***Software utilities***

Logo/firmware download program helps you use logo efficiently and easily. Also available is the Store Maker logo download utility allowing updates of logos and coupons.

Thermal printing assures virtually silent operation and keeps consumables to a minimum – Ribbons are not required. Black and white thermal paper is widely available and increased use of thermal printing has driven down paper costs significantly.

• *Designed for ease of use and convenience*

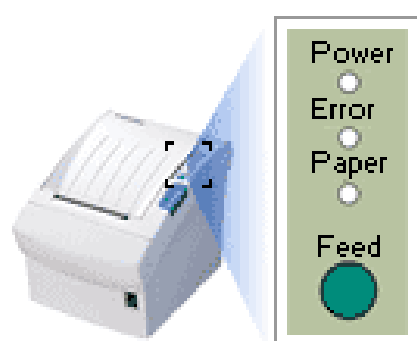

The SRP-350 has a small footprint that allows for flexible placement on a countertop or wall using an optional wall mount bracket.

• *Applications*

- POS system
- Kitchen printer
- Electronic scale
- EFT-POS
- Measuring equipment
- Lottery

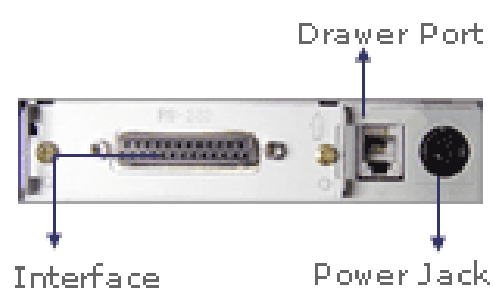

• Indicator

• Wall-mount bracket

• Easy Paper Loading (Drop-in and Print)
